

I've worked as a **Professional Voice-Over Artist** since 2001, in addition to various gigs as an actor, radio and TV presenter.

My voice is rich, smooth, vibrant and gently persuasive. People quickly engage with my voice, and respond to it positively.

Ideally suited for "straight" and "conversational" reads, I am frequently engaged to provide professional voice-over recordings for audio books, educational videos, corporate training videos, podcasts and radio and TV commercials.

To listen to my 2 minute voice-demo, visit www.markcollard.com
