• more than just fun

Learn How To Run Programs That Inspire Trust, Interaction & Fun

- 1 day introductory workshop in VIC, NSW, QLD, TAS
- No experience necessary
- Very popular, regularly sells-out

Introduction to critical program design and facilitation skills featuring dozens of group activities which develop self-esteem & inspire trust, co-operation and outrageous fun.

At a glance, the **'More Than Just Fun'** workshop will:

- Present some of the most successful group activities (ice-breakers, de-inhibitizers, trust exercises, and group initiatives) that have universal appeal and relate directly to key learning outcomes;
- Model a simple yet powerful program philosophy that is proven to foster a safe learning environment & can be used with almost any group;
- Explore critical program design and facilitation (soft) skills that foster 100% participation and successful group outcomes; and
- Share, learn and have more fun that you've had in a long time.

For more details, or to register, go to www.inspireyourgroup.com/mtjf.htm

• adventure programming

Learn How To Design Extraordinary Experiential-Based Curriculum

- 3-day residential workshop in VIC
- Programming experience preferred, but not essential

Intensive and interactive program to immerse and equip experienced educators and leaders with state of the art "hard" and "soft" group programming skills.

At a glance, the **'Adventure Programming'** workshop will:

- Introduce and fully immerse you in a successful approach to adventure-based recreation and education;
- Present a wide variety of activities, including ice-breakers, co-operative games, de-inhibitizers, trust exercises, and initiatives. These activities will have universal appeal, are highly interactive and are known to generate enormous fun and enjoyment for the participants;
- Demonstrate and model leading and "best practice" facilitation skills;
- Thoroughly explore key programming philosophies, such as Challenge by Choice, Sequencing, FUNN, the Experiential Learning Cycle and the Full Value Contract;
- Present and discuss a successful three-step program-design model which can be applied to all programs / curriculum;
- Discuss and explore the Why, When, What and How? of processing a group's experience; and
- Explore how to create a safe learning environment, in which participants can learn from their "mistakes", reflect and effectively give and receive feedback about their performance.

• advanced facilitation skills

Learn How To Master Group Facilitation

- 2-day residential workshop in VIC
- Experienced practitioners only

Intensive program in which participants design, deliver and process a short "program," and then receive structured, professional and valuable feedback designed to strengthen their programming and leadership skills.

At a glance, the '**Advanced Facilitation Skills**' workshop will:

- Provide you with a unique opportunity to plan, lead and process a short experiential-based program with a co-facilitator;
- Under the professional guidance of Mark Collard, give and receive insightful, purposeful and professional feedback in regards exemplary programming and facilitation skills;
- Explore and refine your unique facilitation skills and style;
- Thoroughly explore key programming philosophies, such as Challenge by Choice, Sequencing, FUNN, the Experiential Learning Cycle and the Full Value Contract;
- Explore a wide-variety of program design issues including needs assessment and evaluations;
- Examine the fundamentals of facilitation skills and effective processing techniques; and
- Invite you to create, participate and examine a safe learning environment, in which participants will be empowered to learn from one another.

custom workshops

All of Mark's professional development workshops can be custom-designed to suit your specific needs and program goals.

This means, he comes to you. All you have to do is gather 10 or more people at a venue of your choice, arrange the meals and refreshments (if needed) and Mark will do the rest.

Here's a short list of popular custom workshop topics:

- **Experiential-Based Learning Activities & Philosophies**
Ice-breakers, group games, trust exercises, initiatives, key programming philosophies
(1 hr to 3 days)
- **Processing (Debriefing) Skills**
Exploration of Why, What, When & How? of group processing techniques
(3 hours to 3 days)
- **Safe Use of a Challenge Ropes Course**
Preparation, sequencing, spotting skills, low elements, belay skills, high elements
(2 to 4 days)
- **Rescues & Advanced Safety of Challenge Ropes Course**
Self-belay systems, gear retrieval, participant rescues, belay-escapes
(2 to 3 days)
- **Intensive Examination of Critical Facilitation Skills**
Hands-on practice, professional & peer review, discussion of key facilitation skills
(2 to 3 days)

To learn more about these and many more custom-designed PD workshops, please contact Mark to discuss your needs.
